

# Amala Home

Founded by Erika Elizabeth and Danielle Madden, Amala was born out of the acknowledgment that everything holds an energy. Our environment, and the things in our environment, being primary energy containers that have a potent effect on our daily lives. We use ancient ritual + techniques to purify that which no longer aligns with the intention of your space, while invoking that which supports the manifestation of your desires.

Just like our homes accumulate physical dirt/grime overtime, energetically, the same thing occurs. Imagine if

you went years without ever deep cleaning your space? You would never. That said, this is the current state of most homes, from an energetic perspective. Amala wants to change this. We have experienced firsthand the disharmony that can occur in a space that is being weighed down by dense energy.

When your home is purified, it restores balance and harmony to your life, which is essential for giving you and your family a happy and healthy place for deep healing and rejuvenating the spirit. Not only that, but the energies and

the opportunities you desire for your life can only enter into a home that has a clear space to house them. When your space has been intentionally cleared, you can expect to experience a stronger sense of wellbeing, deeper clarity with thought, restorative sleep, greater peace within relationships, the ability to attract more abundance and money making ideas, increased health + wellness, reduced anxiety, elevated mood, regulated appetite + sleep patterns and more energy + vitality.

*"...The girls asked all sorts of in depth questions to gauge what they would be working with in my home. They lead me through discovering what my intentions would be for our home and what I would like to infuse within the space. I thought that was very cool. Despite all of this being new to me, I felt comfortable and understood. After their work, our space immediately felt lighter and happier. I don't really know how else to describe it. My husband noticed a huge difference in his quality of sleep. Personally, I just feel happier and more at peace when I am at home. After the clearing, we also received news that my husband would be promoted to a higher position in his company. It's hard to say if that was correlated, but this is something we had been waiting on for months, and it felt aligned with the work that Amala did in our space. After understanding the power of this work, I don't know why we all don't do periodic energy cleaning inside of our homes!" – Katherine Denver, CO*
