

EVA TIMBS

Stylist - Wardrobe Consultant - Personal Shopper

Sydney based wardrobe consultant and personal stylist Eva Timbs transforms wardrobes and lives, with her chic, effortless, streamlined approach to style.

An expert in fashion, retail, and personal styling, Eva launched her wardrobe consultancy in response to demand from clients, colleagues, and friends looking to her unique brand of beautiful, practical style advice.

In line with Eva's philosophy that great style is a luxury, every woman deserves, Eva provides affordable, personalized wardrobe consultations that will declutter, re-organize and re-style your existing wardrobe in just two hours. Eva then curates a shopping list of must-have pieces to create a capsule wardrobe for every day, situation, style, and body shape.

Working regularly with clients wanting to nail that job interview and land their dream job, mothers re-entering the workforce, working professionals too busy to shop for themselves and women simply wanting to look great and feel confident, Eva is renowned for building warm, open, trusting relationships with clients.

"It's a fact that we only wear 10 percent of our wardrobe 90 percent of the time. By engaging a wardrobe consultant, you have an expert eye to help you let go of the pieces that no longer serve you and create a concise, yet killer wardrobe that takes all the time and effort out of getting dressed," says Eva.

During a wardrobe consultation involves Eva will identify pieces to keep, and those destined for charity. Your de-cluttered wardrobe will then be re-organized and re-styled into great outfits for work, weekend and special occasions (these are photographed). A curated shopping list of pieces needed to complete your wardrobe transformation will be sent in a follow-up email from Eva with suggestions of what and where to buy.

"Wow Eva!! You're amazing!! It was such a cleansing feeling having you go through my wardrobe. Getting rid of 6 huge garbage bags full of dated and old clothes that didn't fit me anymore. "
