BIO

I'm an Actor, Editor and a Fish. I've been working in this business since 2006 and I absolutely love it. While studying at LMU I learned how to edit and I got really into it. Editing silly videos for friends and then my own demo reel. After my manager at the time saw that I edited my own reel, he started sending me his other clients and I became a demo reel editor. Having years of experience as an actor I know what casting is looking for these days.

"Clay is simply awesome! I didn't have to worry about anything, except send all footage and requests in and my reel was masterfully put together in no time"

- Xenia LeBlanc

"You did an awesome job! I auditioned and booked so much more after your reel edit!"

- Audrey Looye
